# PSSLive

PUBLIC SECTOR SOFTWARE

PSSLive is the smarter way to capture, manage and maintain all your Assets and Inspection needs, whatever you survey.

PSSLive provides a complete tool for all your Asset, Inspection and Task management requirements:

- Maintain a detailed Asset Register of your Sites and Assets.
- Inspect the Sites and Assets you are responsible for.
- Configure the system to your needs; create Inspection Schedules and Routes to aid workload efficiency.
- Manage Findings to completion using Task management.

## 2 APPS, 1 SOLUTION

PSSLive offers a Windows desktop interface with a mobile app available on iOS or Android platforms.

## PEACE OF MIND WITH PSSLIVE+ MOBILE

- Record inspections efficiently and accurately on site.
- 3 core areas:
  - Inspections Management
  - Task Management
  - Site Management
- Dashboard style To Do menus.
- Plot Sites and Assets to map.
- Provide access to Contractors.
- Add, view and update multiple images to Sites, Assets, Findings and Tasks.
- Inspection signatures captured and stored.
- Plot Findings directly via map.

Over 75% of the UK's playground Assets are already inspected using PSSLive!

## SAVE TIME AND MONEY WITH PSSLIVE

Minimise administration and data entry.

Bring your data alive with dashboard technology showing core KPI's.

To Do Lists alert you to areas requiring attention or action.

Instantly access full Inspections history.

Avoid duplication of effort and eliminate mislaid information.

Provides the ultimate safeguard in the event of managing ongoing maintenance, defending insurance claims, or providing information in court cases.

Create detailed reports.

Secure audit trail including history log for findings and tasks.

Work more efficiently with Contractors.

Aid and support purchasing decisions and resource planning.

Data is retained securely on the Cloud, and stored indefinitely.
